#### REMARKS

In the Advisory Action, the Examiner has indicated that all claims have been allowed. Applicant would like to thank the Examiner for that notification. However, the Examiner has outlined two objections to the specification that need to be addressed.

First, Applicants have added the phrase "all of" in paragraph [0027] as recommended by the Examiner. As to the lines 8-10 of paragraph [0027], Applicants submit that this phrase is clear and proper. The entire sentence including the phrase identified by the Examiner states that "[w]hen all of the mixed fluid to be placed into the mold is within all three of the mold, the outlet passageway 36 and the input mix chamber passageway 34 at the end of a timed mixed cycle, then the mixing chamber piston rod 50 is extended past the first input 38 and the second input 42 to stop the injection of the first fluid and the second fluid into the input mix chamber passageway 34 and to push the mixed fluid out of the input mix chamber passageway 34 into the outlet passageway 36." Accordingly, the above paragraph can be broken down as follows. What happens? The mixing chamber piston rod 50 is extended past the first input 38 and the second input 42 to stop the injection of the first fluid and the second fluid into the input mix chamber passageway 34 and to push the mixed fluid out of the input mix chamber passageway 34 into the outlet passageway 36. There is nothing confusing about this phrase. When does this happen? When all of the mixed fluid to be placed into the mold (that is, all of the mixed fluid that is to be placed in the mold, but that is not already totally in the mold) is within all three of (1) the mold, (2) the outlet passageway 36 and (3) the input mix chamber passageway 34 at the end of a timed mixed cycle. Applicants submit that there is nothing confusing about this phrase.

All pending claims are believed to be in condition for allowance and the objections to the specification are believed to be obviated. Accordingly, a Notice of Allowance is therefore earnestly solicited.

Respectfully submitted,
